

**Training of 2021-12-07**

**Session 'CENELEC IT Tools'**

**Questions & Answers**

1	The rights on CP (editor & Co) are automatically linked to the role (like vote owner access for CIV linked to EMS)? Or can it happen that we need to contact you to give the rights e.g. to a new assigned secretary, if not given the rights yet?	The access is automatically linked to the role. A new secretary will have the appropriate access through the role of secretary.
2	You mentioned that the starting date when creating a CIV needs to be the next day. By default, it's the date from today. Why can't it be changed that by default it already appears the date of the next day?	The default date can be changed, it is listed as a change request for next time IEC IT colleagues make changes on the application.
3	And what is the reason for the multiple "No's and "Yes's when creating the answers on the CIV?	There are no reason and this is listed as a small improvement as well for next time modifications are made to the application
